

SQUAD™ Seed Treatment Benefits

- SmartRice® seeds have the latest seed technology included for optimum performance
- The SQUAD™ seed treatment maximizes planting efficiency in mechanical planters by improving flow and seed singulation
- The SQUAD™ technology increases surface area of the seed, allowing for more seed protection products to be applied (if needed)
- SQUAD™ clearly distinguishes Smart Seeds from others in the market by easily identifying the technology and preventing the wrong seeds from being sowed in the wrong place
